

## Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

### FOORD SICAV - FOORD GLOBAL EQUITY FUND (LUXEMBOURG) - Class R

(ISIN: LU2239867901) FOORD GLOBAL EQUITY FUND (LUXEMBOURG) (the 'Fund') is a Sub-Fund of FOORD SICAV (the 'Company'). Lemanik Asset Management S.A. is the Management Company (the 'Management Company') to the Fund.

#### Objectives and Investment Policy

- The objectives of the Fund are to achieve optimum risk adjusted return by investing primarily in a diversified portfolio of global equities and to achieve a higher total rate of return than the MSCI All Country World Net Total Return Index (the "Benchmark") over a full market cycle, without assuming greater risk.
- To achieve its objectives the Fund shall invest primarily in a diversified portfolio of global equities (including equity-related instruments such as warrants). The Fund may also invest in money markets instruments or other instruments to either manage risks or enhance returns.
- The Fund is actively managed in reference to the Benchmark but not constrained by this Benchmark in its portfolio positioning. The Manager actively decides on the portfolio's regional allocation, sector views and overall level of exposure to the market in order to take advantage of investment opportunities. Accordingly, the portfolio composition may substantially deviate from the benchmark.
- The Benchmark is used for performance fee calculation.
- Investments in China A-shares will also be done via Shanghai-Hong Kong Stock Connect with risks particular to this market.
- The focus of the Fund's investment process will be stock selection through in-depth fundamental analysis and research.
- The Fund may use complex financial instruments ("derivatives") such as futures and options to protect itself against adverse currency or price movements (technique known as "hedging") or for efficient portfolio management.
- This Fund may not be appropriate for investors who plan to withdraw their money within three years.
- The Fund's net income will not be distributed but will be retained and reinvested.
- You can sell shares on most working days in Luxembourg. Exceptions to this are more fully described in the Fund Holiday Calendar available from the Administrator (please refer to the Fund's prospectus).

#### Risk and Reward Profile

- The lowest category does not mean a risk free investment.
- The risk and reward profile may change over time.
- Historical data may not be a reliable indication for the future.
- This Fund is in category 5, since the share price has a quite high volatility therefore the risk of loss as well as the expected reward can be medium to high.

The following risks may not be fully captured by the risk and reward indicator:

- Counterparty risk: Bankruptcy or insolvency of the Fund's derivative

counterparties may lead to payment or delivery default.

- Credit risk: Issuers of assets held by the Fund may not pay income or repay capital when due. The Fund's investments generally have low credit risk.
- Liquidity risk: Assets cannot necessarily be sold at limited cost in an adequately short timeframe. Part of the Fund's investments may be prone to limited liquidity. The Fund will endeavor to mitigate this risk by various measures.
- Operational risk: Deficient processes, technical failures or catastrophic events may cause losses.
- Political and Legal risks: Investments are exposed to changes of rules and standards applied by a specific country. This includes restrictions on currency convertibility, the imposing of taxes or controls on transactions, the limitations of property rights or other legal risks. Investments in less developed financial markets may expose the Fund to increased operational, legal and political risk.

A complete description of risk factors is set out in the Prospectus in the section entitled 'Risk considerations'.

## Charges

The charges you pay are used to pay the costs of running the Fund. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual charges.

As the share class has not had a full year of performance, the ongoing charges figure is an estimated figure.

This figure may vary from year to year. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another Fund.

For more information on charges, please see the 'Charges and expenses' section

of the Prospectus.
