FEE STRUCTURE

The annual fee comprises a fixed standard fee plus a performance fee, subject to an overall minimum.

The annual fee may be adjusted up daily (subject to fulfilling the performance conditions) by the performance fee, calculated as the difference between the portfolio performance and the benchmark return for the same period multiplied by the performance fee sharing rate.

FEE RATES (CLASS R)

Subscription and switching fees	0.00%
Standard annual fee	0.85%
Performance fee sharing rate	15%
Minimum annual fee	0.85%
Maximum annual fee	Uncapped

PERFORMANCE FEES

Performance fees align investor and manager return objectives by rewarding the manager for outperformance. A performance fee is chargeable only when the portfolio performance exceeds the benchmark. Should the portfolio underperform it must first recover the underperformance since the performance fee last crystallised or the inception of the share class, whichever is later.

The performance fee is calculated and accrued on a daily basis. If the performance conditions are no longer satisfied, all performance fees previously accrued during that accounting period (calendar year) are reversed.
